

Osprey Biotechnics, a division of Phibro Animal Health Corporation, has pioneered the area of biological additives that is unparalleled in the industry and offers superior biological products to provide cleaner, more cost-effective biological solutions.

Osprey's only business is industrial microbiology; namely, the pursuit of isolating, growing, stabilizing, and packaging naturally occurring beneficial bacteria for a wide variety of HI&I and waste treatment applications including:

- Preventative Maintenance for Drainlines/Septic Systems/Odor reduction.
- Petroleum hydrocarbon waste treatment for oil/water separators, and other similar grease and oil applications.
- Degradation of fats, oils, grease & other stubborn organics.
- Wastewater treatment: car/fleet wash, odor elimination, paper degradation, hard surface cleaning.
- Hydrogen Sulfide Elimination.
- Ammonia reduction and degradation of phenols.
- Removal of stains on carpet and fabric.

In whatever area you work with Osprey, know that our benchmark is quality. We offer the best biological products in the industry and work hard to keep our customers satisfied.

- Natural Biological Degradation of Organic Wastes.
- Proven Safe and Effective.
- Long Shelf Life.
- Quality Control/Assurance Testing.
- Innovative technology recognized for its outstanding quality by the Environmental Protection Agency's Safer Choice program.

Other available services:

- Custom Culture Fermentation-Toll Manufacturing. Through our pilot fermentation program, we assist our customers' scale-up and commercialization of their own strains and ferment the strains for the customers' use.
- Private Label Manufacturing.

Osprey Biotechnics is an EPA registered, Biopesticide manufacturing facility and is GMP, HACCP and Safe Food/Safe Feed Certified.

There are no better biological products on the market.

PRODUCT INFORMATION

Product	Liquid/ Dry	Color	Fragrance	Viscosity	Opacity	Microbial	Enzyme	RTU	Certifications
BioOne® Preventative Maintenance for Drainlines/ Septic Systems/Reduce Odors	Liquid	Blue	No	Low	Medium	Pseudomonas	No	Yes	EPA-Safer Choice
BioOne® Preventative Maintenance for Drainlines/ Septic Systems/Reduce Odors	Dry	No	No	N/A	N/A	Bacillus	Yes	Must Mix with Water	
Munox® Series 1 Degradation of Fats, Oils, Grease and other Stubborn Organics	Liquid	Blue	No	Low	Medium	Pseudomonas	No	Yes	EPA-Safer Choice
Munox® SR RTU Petroleum Degradation	Liquid	Blue	No	Low	Medium	Pseudomonas	No	Yes	EPA-Safer Choice
Munox® Series 5 Ammonia Reduction and Degradation of Phenols, etc.	Liquid	No	No	Low	Medium	Pseudomonas	No	Yes	
Bacilox® 110FF 10X, 20X Fully Formulated microbial base with Fragrance, Surfactant, and Opacifier. Septic, drain, odor cleaning products.	Liquid	White	Yes	Low	High	Bacillus	No	No	
Bacilox® XL 10X, 20X, 40X, 100X Microbial base concentrate for making Wastewater treatment, cleaning products, odor control, lagoons and ponds.	Liquid	No	No	Low	High	Bacillus	No	No	
Sugar Residue Eliminator Digests Sugar Residues and Build-up in Drainlines receiving water from ice machines & soda fountains.	Liquid	Blue	No	High	Medium	Bacillus	Yes	Yes	
Bacilox® XL OE 5X 5X Concentrate base for odor reduction; pet odors; urinals; carpet spotter.	Liquid	No	Yes	Low	High	Bacillus	No	No	
Bacilox® XL HS Base for Hard surface cleaner, grout cleaner products.	Liquid	Tan	No	High	High	Bacillus	No	No	
BPB-50 (Concentrate) Bacillus Concentrate for Dilution on Dry carrier. Wastewater treatment; odors; ponds.	Dry	Tan	N/A	N/A	N/A	Bacillus	No	No	
BPE-5C Powder with Enzyme High paper (cellulose) degradation; portable toilets; RV Tanks, Septic.	Dry	Tan	N/A	N/A	N/A	Bacillus	Yes	No	
Non-Microbial									
Ecolox OE 5X 5X Concentrate base for odor reduction; pet odors; urinals; carpet spotter products.*	Liquid	No	Yes	Low	Medium	No	No	No	EPA-Safer Choice
Live Vegetative and Bacillus Blend									
MPB-50 (Concentrate) Concentrate for Dilution on Dry carrier Reduces organic loading in wastewater and pond treatments. Reduces odors.	Dry	Tan	N/A	N/A	N/A	Bacillus & Pseudomonas	No	No	

Footnotes:

10X: Refers to concentration. Product concentrations can also be tailored to customer requirements.

RTU: Ready To Use; 1X concentration.

*Can also be made in RTU. Contact us for specific RTU needs.
