

# PHI-CHROME®

As one of the **largest feed trace mineral sourcing companies in the USA**, Phibro Animal Health Corporation has the sourcing power to deliver superior-quality chromium propionate for your feed operations.

## HIGH-QUALITY CHROMIUM FROM YOUR TRUSTED PARTNER IN MINERALS

### MADE IN THE USA

Our robust domestic transportation systems help lower costs, reduce supply chain risks, and allow for order flexibility.

- Warehousing in TX, CA, NE, and IL speeds up delivery time and access to the product.

**60+**  
YEARS

of trusted experience  
providing minerals  
to feed operations

*All controlled and quality tested  
by Phibro every step of the way.*

### HIGH-QUALITY TESTING

Our Dynamic Quality Assurance® program confirms product purity and consistency while minimizing contaminants and heavy metal inclusion.

- Meets FDA guidelines and requirements for production of chromium propionate.
- All raw ingredients and finished mineral products are thoroughly tested and analyzed for ingredient potency throughout manufacturing and mixing.
- Our manufacturing process is engineered to maintain desired chemical composition and product quality, which helps deliver the correct chromium level to each animal.

Get high-quality chromium from your trusted partner in minerals.
