

# WE ARE PHIBRO

The Right Solutions.  
For Every Species.

*When it comes to raising healthy animals, you need more than the right solutions. You need the right partner who brings decades of industry expertise and a global team to put that knowledge to work for the advancement of your operation. Because at the end of the day, we're all in this together, and we are proud to work with you as your trusted partner, every step of the way.*

## **MEDICATED FEED ADDITIVES**

Concentrated medicated products that are administered through animal feeds.

## **VACCINE**

Our vaccine products are focused on preventing diseases in food producing animals such as poultry, swine, cattle and aquaculture.

## **NUTRITIONAL SPECIALTY PRODUCTS**

Designed and developed through research and commercial trials working together with private research companies and leading universities.

## **DIRECT-FED MICROBIALS**

Decades of leading research and manufacturing means our products contain highly active, selected strains for improved intestinal integrity which leads to improved animal health and performance and pathogen control.

## **MINERAL NUTRITION**

We've sourced a broad portfolio of high-quality minerals from world-class partners.

## **PHIBRO SERVICES**

Field and Lab Services, Technical Support and Toll Manufacturing are just a few of our custom solutions for your business.
