

# MUNOX<sup>®</sup> Series 1

## Performance Qualities

- Live pseudomonas bacteria in vegetative state.
- Breaks down fats, carbohydrates, proteins, and petroleum hydrocarbons.
- Environmentally safe formulation containing non-pathogenic bacteria (BSL-1).
- Biologically stable for up to one year.

## Characteristics, Handling, and Storage Product Characteristics:

Bacterial cell count ..... 1<sup>8</sup>/ml  
 Bacterial type ..... Pseudomonads  
 Appearance ..... Blue liquid  
 Odor ..... Slight  
 Stability ..... Up to 1 year @ 35°F – 95°F (2°C – 35°C)

## Performance Characteristics:

pH range ..... 6.0 – 8.0  
 Temperature range ..... 39°F – 95°F (4°C – 35°C)

Substrate	Relative Rating
Fats	++++
Protein	++
Oil	++++
Grease	++++
Sugar	++
Starches	++

5 “+” = most effective and 1 “+” = least effective

## Storage and Handling:

- Best stored in a cool, dry location.
- Avoid contact with eyes.
- Wash hands after handling.

## Packaging Options:

- 2.5 gallon container
- 5 gallon container
- 55 gallon drum
- 275 gallon tote
