

A multi-strain *Bacillus* product for environmental, industrial, institutional and household consumer applications.

## Performance Qualities

- Stringent quality-controlled products with high spore counts.
- Exceptional bacterial enzyme activity.
- Accelerates the breakdown and digestion of fats, carbohydrates, proteins and cellulose.
- Bacterial metabolism with aerobic and anaerobic growth.
- Environmentally safe formulation containing non-pathogenic bacteria.
- Long shelf life.

## Performance Characteristics

	10x Concentrate	20x Concentrate
Bacterial Cell Count:	> 2 trillion cfu/gal   5.5E8 cfu/ml	> 4 trillion cfu/gal   1.1E9 cfu/ml

- **Bacterial Cell Count (after dilution):** 208 billion cfu/gallon | 5.5E7 cfu/ml
- **Bacterial Type:** Multi-*bacillus* spore blend
- **Appearance:** Opaque liquid
- **Fragrance:** None
- **Stability:** Over 2 years at 35-95°F | 2-35°C

\* Do not freeze or expose to temperatures above 95°C

## Storage and Handling

Store in a cool, dry location. Avoid contact with eyes and wash hands after handling.

## Formulation Suggestions

To obtain the minimum of 5.5E7 cfu/ml | 208 billion cfu/gal:

- Use 10X at 10% in the finished product volume.
- Use 20X at 5% in the finished product volume.

\* Mix the concentrate thoroughly prior to use.

## Packaging Options

- 5-gallon pail
- 55-gallon drum
- Volume custom packaging
