

POSITION TITLE: Analytical Chemist
DEPARTMENT: Quincy, IL Laboratory
POSITION REPORTS TO: Juli Clark
WORK SCHEDULE: Monday – Friday with ability to flex as needed
(or based on role)

COMPANY OVERVIEW:

Phibro Animal Health Corporation is a publicly traded organization with a rich history spanning nearly 100 years of service. The Company is a global manufacturer of medicated feed additives, feed ingredients, advanced nutrition solutions and vaccines. Phibro's revenues are in excess of \$750 million, and are supported by over 1400 employees worldwide.

POSITION DETAILS:

The Analytical Chemist is a position that supports the Inorganic laboratory by providing technical expertise in the areas of method development and method deployment with a focus on laboratory workflow optimization. The Analytical Chemist will develop analytical methodology to support R&D efforts aimed at creating new technologies and will participate in planning and execution of R&D projects.

Key Responsibilities:

- Uses chemical and physical science expertise to choose optimal analytical technologies and techniques to characterize various organic and inorganic materials
- Develops analytical methodology and application testing of various products
- Investigates, modifies, and corrects laboratory procedures/processes that cause out of specification assays.
- Collaborates with plant, quality, regulatory functions and marketing/sales to commercialize products
- QA/QC support for manufacturing projects and process optimization

Key Competencies & Requirements:

- Degree in Analytical Chemistry or related analytical science field with a minimum of 5-10 years relevant experience.
- Strong working knowledge of ISO 17025 and other laboratory accreditation programs
- Preferential consideration will be given to candidates with extensive experience in other analytical techniques such as ICP-OES, ICP-MS, UV-VIS, FT-IR and GC-MS
- Demonstrates strong expertise in X-Ray Diffraction (XRD) with 5 years' experience including method development.
- Demonstrates skills in method development, analytical troubleshooting and problem solving

- Effective leadership and supervision of chemists or technicians working on related projects
- Excellent project management, data analysis, technical writing, and communication skills

We offer excellent company benefits including group medical and dental insurance, life insurance, and a 401(k) plan.
