

**Outstanding Products Start With Outstanding Ingredients.**

OmniGen nutritional specialty products are combinations of selectively sourced ingredients, including all-natural aluminosilicates, yeast components and other ingredients—all produced using Phibro’s formulation expertise and unique processing technologies. All OmniGen products are evaluated using our rigorous Dynamic Quality Assurance® program.

**We’ve Got Your Back.**

The success of your dairy operation is directly related to the success of your herd. With Phibro as your partner, you can count on OmniGen AF to help achieve the results you want.

**OmniGen AF. A Step Ahead of Stress.**

# DON'T LET STRESS RUN YOUR BUSINESS.

Stress happens — but your cows' stress doesn't need to compromise their immunity or keep you from achieving your goals. Help reduce stress and its negative health effects on your dairy cattle with OmniGen™ AF nutritional specialty product.

OmniGen AF includes selectively sourced microbial ingredients, vitamins and aluminosilicates, proven to provide specific biological activities. When fed consistently, OmniGen AF helps improve immune function, which can lead to fewer infectious and metabolic diseases in your herd.

#### Tested. Proven.

Backed by nearly two decades of extensive peer-reviewed research and field trials, OmniGen AF continues to help cows with critical immune support and stress management. Consider the many unexpected and expected stressors your cows experience, including:

- Calving
- Dry-off
- Heat stress (high Temperature Humidity Index)
- Social
- Comfort
- Feeding management
- Feed quality (molds & mycotoxins)
- Sanitation
- Transportation
- Handling
- Ventilation

These stressors can cause challenges for your dairy operation. Use OmniGen AF nutritional specialty product to make a difference.
